

Devotion 2- Who is God? God as Creator

Have you ever thought to yourself, who is God? It can be kind of confusing hearing people talk about God in a lot of different ways. Today, we are going to look at the Bible and see what it says about God.

In the first part of the Bible there's a book called Genesis, it says "In the beginning, God created the Heavens and the earth". You know what that means? That means that God made the entire world out from nothing. All of the trees around us, all of the grass, and all of the animals are all created by God! God loves each of us so much that He created this beautiful world for all of us to live in. Isn't it fun to look all around at this stuff and know that it was designed by God?

Actually, it's not just all of nature that God created, God made each one of you. Does anyone know how many people are in the world? There are over 7 billion people in the world! You know what? God made each of them very special. Each of us are created by God to be very different than any other living thing or animal. All of the animals in the world don't have the abilities that you and I do. You and I can read, and write, and talk to each other. Can animals read and write? No! Can animals go to school and learn math? No, that's silly!

God made everything in this world like the trees, animals, and grass. And don't forget that God made you and me so we can be very special to Him unlike any other animal! God is the Creator of the entire world and everything that is in the world.

Discussion Questions:

Does anyone have any questions about the lesson?

Do you think God meant to create everything or was it an accident?

Why do you think God created everything in the world, including us?
